PROSTHETIC TIMELINE

HEALING 8-12 Weeks	FITTING 3 Weeks	TRAINING 2 Weeks & Beyond
When your incision line is FULLY healed, and swelling is stable, the fitting process begins!	Custom cast of your limb is taken, the fit is confirmed and you take final device home. Three total visits.	Work with a physical therapist to learn how to walk with your prosthesis. Inpatient or Outpatient Setting.

Approximately 5 Months
